SAMSON ISHOLA

Lagos, Nigeria | 8106692300 | isholanthonysamson@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Artificial Intelligence researcher and data analytics professional with over four years of experience designing and evaluating machine learning and generative AI solutions. Skilled in large language models, research design, quantitative analysis, and AI frameworks such as Python, Scikit-learn, and TensorFlow. Proven ability to translate research findings into business applications and develop AI-driven tools that enhance operational efficiency and inform strategic decisions.

CORE COMPETENCIES

- **Core Competencies**: Data Analysis and Business Intelligence, Artificial Intelligence and Generative AI Applications, Statistical Analysis and Predictive Analytics, Research Design and Data Interpretation, Business Analysis and Requirements Gathering, Data Visualisation and Dashboard Development, Reporting and Decision Support, Quantitative Analysis and Mathematical Modelling, Problem Solving and Critical Thinking, Process Improvement and Operational Analysis, Project Planning and Management, Technical Documentation and Report Writing, Stakeholder Engagement and Communication, Customer Experience and Service Operations, Educational Technology and Learning Analytics, Incident Management, Service Management, and Business Continuity., AI Research, Data Science
- **Technical Skills**: Python, SQL, HTML, CSS, JavaScript, Power BI, Microsoft Excel, Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), Scikit-learn, MySQL, FastAPI, JASP, Statistical Analysis, Survey Design, Quantitative Research Methods, Qualitative Research Methods, Data Center Infrastructure Management (DCIM), Machine Learning, PyTorch, TensorFlow, LangChain

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Google Advanced Data Analytics Professional Certificate
- Google Project Management Professional Certificate
- Microsoft Project Management: Build Job-Ready Skills Professional Certificate
- Microsoft Certified: Machine Learning Operations Engineer Associate
- Microsoft Certified: Azure AI Apps and Agents Developer Associate

PROFESSIONAL EXPERIENCE

Drspecimen Intellisense Group (DIG) May 2022 - Present

R & D, DATA ANALYTICS Lagos, Nigeria

- Conducted AI research, business analysis, and stakeholder consultations to identify needs, operational challenges, and opportunities for innovation.
- Gathered, analysed, and documented requirements for data analytics, Artificial Intelligence, educational technology, and digital transformation projects.
- Translated business objectives into functional specifications, analytical models, dashboards, and technology solutions.
- Performed quantitative and qualitative analysis to evaluate performance, user needs, operational processes, and strategic opportunities.
- Developed business intelligence dashboards and reporting solutions to support performance monitoring and data-driven decision-making.
- Designed and evaluated AI and Machine Learning solutions using PyTorch and TensorFlow to improve efficiency, automation, and organisational effectiveness.
- Conducted market research, competitive analysis, and feasibility assessments to support product development and innovation initiatives.
- Produced business cases, project documentation, research reports, technical specifications, and stakeholder presentations.
- Collaborated with clients, researchers, educators, and technical teams to align business requirements with solution delivery.
- Managed innovation projects from requirements gathering and solution design through implementation, testing, evaluation, and continuous improvement
- Developed LangChain-based prototypes for conversational AI applications to demonstrate retrieval-augmented generation capabilities.

Ecobank Nigeria Aug 2021 - Apr 2022

OPERATIONS AND CUSTOMER SERVICE SUPPORT Lagos, Nigeria

- Supported daily banking operations and customer service activities, ensuring efficient service delivery and

adherence to organisational procedures.
- Analysed customer enquiries, service requests, and operational issues to identify root causes and facilitate timely resolution.
- Collaborated with internal stakeholders across departments to address customer concerns, improve service quality, and enhance operational effectiveness.
- Monitored service processes and customer interactions, identifying opportunities for process improvement and enhanced customer experience.
- Assisted in the preparation of operational reports and service performance information to support decision-making and service management activities.
- Maintained accurate records of customer interactions, transactions, incidents, and service requests in accordance with regulatory and organisational requirements.
- Contributed to compliance, risk management, and quality assurance activities by ensuring adherence to banking policies and operational standards.
- Gathered and communicated customer feedback and operational observations to support continuous improvement initiatives.
- Resolved customer complaints and service issues while maintaining high levels of professionalism, accuracy, and customer satisfaction.
- Supported cross-functional teams in delivering operational objectives and maintaining service excellence in a fast-paced banking environment

God's Standard School May 2019 - Jul 2021

TUTOR, MATHEMATICS AND SCIENCE Ogun State, Nigeria

- Worked with Mathematics and Science department, coordinating academic activities, curriculum implementation, and departmental performance initiatives.
- Analysed student performance data, assessment outcomes, and learning trends to identify improvement opportunities and support evidence-based decision-making.
- Developed and implemented strategies that improved student engagement, academic performance, and overall learning outcomes.
- Coordinated departmental planning activities, including curriculum delivery, assessment schedules, resource allocation, and performance monitoring.
- Prepared reports and performance summaries for school management, providing insights into departmental achievements, challenges, and improvement opportunities.
- Collaborated with school leadership, teachers, students, and parents to address academic challenges and support student success.
- Designed and delivered training, mentoring, and coaching initiatives to support staff development and improve instructional effectiveness.
- Evaluated educational processes and teaching methodologies, recommending improvements that enhanced learning effectiveness and operational efficiency.
- Managed departmental records, assessment data, and academic documentation while ensuring compliance with institutional policies and standards.
- Fostered analytical thinking, problem-solving, and quantitative reasoning skills among students through innovative teaching and learning approaches

SELECTED PROJECTS

Higher-Education Code Generator Using Large Language Models

- Designed an AI-powered system in Python and FastAPI that converts educational prompts into executable code using large language models and prompt engineering with reusable templates
- Implemented LangChain workflows to orchestrate prompts, conducted evaluations on code generation accuracy and latency, and refined templates for improved consistency

AI-Driven Learning Analytics Dashboard

- Built predictive models in Python using TensorFlow and scikit-learn to forecast learner performance and benchmarked accuracy and scalability metrics
- Developed an interactive dashboard with Power BI to visualize educational data, surface insights, and support data-driven interventions

Integrated Digital Platform (Web & Mobile Application)

- Designed and developed a full-stack digital platform with the aid of prompt engineering, comprising a responsive web application and companion mobile application to support content management, research publishing, user engagement, and business operations.
- Implemented features including user management, content publishing, notifications, analytics dashboards, and scalable architecture to enhance digital presence, operational efficiency, and stakeholder engagement.

EDUCATION

National Open University of Nigeria **Sep 2023 - Aug 2026**
B.Sc., Mathematics / Computer Science

Worldquant University **Mar 2025 - Present**
MSc, Financial Engineering

Moshood Abiola Polytechnic **Jan 2014 - May 2019**
Higher National Diploma, Physics with Electronic
